

An illustration of how absurd it is to compare energy sources based on LCOE

	Attendance	Contribution	Advantages	Disadvantages
 Winston	97% of the time	From 0-100% (average 40%)	Can reduce work contribution	Requires a standby consultant
 Nuke	95% of the time	100%	Can reduce and increase contribution Can fix the wi-fi if it goes down His presence reduces mood swings	Demands a long-term commitment from the company

An illustration of how absurd it is to compare energy sources based on LCOE

Nuke

**Would you give
them the same
salary?**

Winston
